Key Energy lowers third-quarter expectations

FuelFix (blog)

It sounds like a free-market success story: a new gas drilling boom driven by hydraulic fracturing, or fracking, which delivers a vast new source of cheap energy without the government subsidies that solar and wind power demand. But men who helped ...

Empower States Act ensures development, environmental stewardship

Dickinson Press

The Empower States Act will help to ensure that a state retains the right to manage hydraulic fracturing and gives it the ability to respond first to any violation. Our bill takes a states-first approach because individual states are the first and best ...

Encana presses EPA to hand over test results

MarketWatch

Concern over potential water contamination has led to widespread opposition to hydraulic fracturing--a process whereby companies pump a high-pressure mix of water, sand and chemicals into the ground to break open seams in the earth and release natural ...
